OUR SPACES

Searching for a pub garden to enjoy the summer weather? One of our pub's best assets is it's large outdoor space. Decked out with a covered terrace (for chillier evenings) and expansive lawn with many seating areas, it's the perfect place to relax under the shade of a tree with a cold drink and look out onto the rural countryside views, bliss.

Parts of the original building date back to circa 1468, including our classic thatch roof, roaring inglenook fireplace and characterful slanted ceilings. The building is full to the brim with personality, everywhere you look crammed with history telling a story of the events our walls have witnessed over 5 centuries.

Inside the cosy main building of our pub, you'll find comfy armchairs, large tables to share with friends and, in the winter, a roaring inglenook fireplace to settle down near to. Our practical, ancient quarry tile floor means we can allow dogs on leads to accompany their owners. Venture into our tap room, overlooking the brewery for more intimate spaces.

Our BREWERY

Based in our unique, very old barn space our talented brewer creates a range of cask conditioned ales, exclusive to The Shoulder. From blonde beers in the summer, to hearty brunette ales in the Winter. We produce a quality brew on-site, at Church Street Brewery.

Enjoy the fruits of our labour, in the adjacent tap room, where you will also find a range of Hawkstone beers and ciders. Reflecting our close association with British farming. We hold regular tasting and educational talks about brewing and it's history.
